Move to
Natural.

Move to natural

25 years ago, we had an idea.

An idea that felt novel at the time (but it was actually a notion as old as humanity itself). It was a simple idea: Nature has the answers. That nature is the real ultimate tech. If you just know how to look.

But, first, you have to be bold, and challenge the common worldview. It's a surreal perspective, consumerism five decades in the making, so ingrained in the way we live that it's become our 'second nature'. It was a petrochemical call-to-arms with a fantastic promise. A boundless future driven by fossil fuels and the human imagination. And it was quite a party. Now 50-years later, this is the hangover. We're more than a little worse for the wear and we're running on almost empty.

But old habits die hard. You lose yourself in supermarket shelves filled with "Natural Alternatives" even though you know that natural, by definition, is never the "alternative". It's the original.

So let's wake-up, get real and smell the polymers. We realise that nature can outperform any artificial alternative. Without compromise.

That plastic is a freak of nature - and nature is the real thing. Nature is the real original. It's beautifully flawed. Has unexplained intelligence.

It's raw. It just is.
Move to natural.

Our plastic- free ambition.

We are aiming for all our materials* to be plastic-free by 2023. The constant pursuit of better is what drives our progress.

PLASTIC-FREE
BY '23

* excluding trims.

Our conscious consumer

The Natural Progressive.

The Conscious Consumer is someone who is mindful about the impact their purchases make - on the environment and society at large.

There is always new information that challenges their opinions, so they are constantly weighing the trade-offs in their values, and are sometimes judged (rightfully or wrongfully). Their active and busy lifestyles add another level of complexity to living out their values.

They take action through reducing and reusing, supporting businesses who 'do good,' and demanding that businesses correct their wrongs.

These may seem like small things, but it gives them a sense of empowerment and control.

Versatility & simplicity.

Natural Performance

For our adventure seekers, the performance collection embodies assortments for long days out on the mountain and those shorter adventures on your doorstep. Made from natural fibers, with performance functionality and designed with versatility in mind. Delivering comfort and style with a no compromise approach on the planet.

Natural Essentials

Essentials are just that, the staples of the icebreaker wardrobe. The most, versatile, reliable, hardworking natural styles that merge effortlessly with our extended collections. It's where you'll also find our very best 100% styles in our priority categories of Base Layer, Tees, Mid layer and underwear.

These styles are designed for wearing over and over again and become the foundations of the Natural Performance and Natural Living icebreaker collections.

Natural Living

From lazy Sunday coastal walks to city hopping weekend breaks, Natural Living creates assortments for the casual and astute urban lifestyles of those living and working in the city or at home. Designed for a life on the move, for work, travel and commuting in the city.

Natural Essentials.

A considered collection made from natural fibers for conscious versatility every day use. Wardrobe classics and staples that work better, together, for more.

Move to natural.

Natural Performance.

Natural Performance collections designed for the edges of the map, when packing is light and adventure is high. From skin to midlayer, the natural layering system naturally keeps you warm manages moisture, thermoregulates - all without compromise on style or the environment.

Layer with the essentials for optimal versatility no matter the weather.

Move to natural.

Natural Living.

A considered collection made from natural fibers for a life on the go or relaxing in 100% comfort at home. Natural fibres ensure there's no compromise on style, comfort or the environment.

Move to natural.

Color Philosophy

Our colors are chosen based on a number of considerations.

First and foremost, we're inspired by natural hues. How those hues of a color work together, how they change across a landscape or object. We try to avoid artificial or synthetic looking colours. We avoid 'perfect' primary colors as they lose the imperfection and uniqueness that we find in nature.

Secondly we're interested in contrast. A bright color doesn't stand out in a room full of bright colors. Against a room of more subdued tones it comes alive. The interaction of the colors to each other is what creates the expression. There needs to be a calm, quiet background for the

things in the foreground to really pop. We work with a background of mostly toned down, neutral and midtone colors, with a few select punchy highlights to bring the room alive.

Thirdly, the context of how the color will be worn. Our products are worn in open wilderness and high mountains, as well as offices and on the street. We want colors that are sophisticated and work across these contexts. We sometimes need colors that make you stand out for safety on a mountain, but even these shades should be unique and individual.

The layering system.

Skin to outer.

icebreaker pioneered the world's first natural layering system – designed to give you the freedom to enjoy and be inspired by your adventures in nature, whatever the conditions or season.

Skin

Silky-soft and luxurious, our breathable skin layers wick moisture away from the body and regulate temperature.

Mid

Wrapping the body in comfort, our insulating mid layers add a buffer zone for moisture and a shield from the cold.

Outer

Warm and lightweight, our outer layers protect from the elements, while still allowing the body to move and breathe freely.

Our natural technologies.

Cool-Lite™

A lightweight and breathable fabric designed to wick moisture away from the body. Silky-soft merino and TENCEL®, sourced from sustainable eucalyptus plantations, combine to create a fabric that naturally regulates the body's microclimate.

ZoneKnit™

Body mapped knitting technology creates warmth and ventilation where needed to optimize all-day comfort.

BodyFitZone™

BodyFitZone™ is our most advanced temperature-regulating natural technology, designed to trap heat where it's needed and release it when working at high intensities.

RealFleece™

Superfine merino wool fibers are brushed to create a luxuriously soft natural fleece that warms and breathes with the skin.

MerinoLoft™

Lofted wool insulation warms without weight and is a natural alternative to synthetic down. A durable, water-repellent shell is filled with natural merino-fiber batting, with a lining in 100% merino for breathable softness.

Merino-Fine™

100% superfine luxury merino. Exceptionally soft 15.5 micron fibers that resist odors and regulate body temperature for all-day comfort.

Merino-Fill™

Two layers of merino knitted fabric with channelled merino yarn fill for extra warmth without sacrificing mobility or breathability.

Base Layer.

Sitting softly next to your skin, natural base layers move and breathe in harmony with your body for comfort all day long.

Reference.

SIZING / Measurements refer to body size, not garment dimensions.

In instances when your body measurements are midway between two sizes, go to the smaller size for a tighter fit or the larger size for a looser fit.

UPPER BODY MEASUREMENTS

WOMAN (INCHES)	WXS	WS	WM	WL	WXL
BUST	32¼	34½	37	39½	42
HEIGHT	5' 5¼	5' 6	5' 6½	5' 7	5' 7½

WOMAN (CM)	WXS	WS	WM	WL	WXL
BUST	82.0	88.0	94.0	100.0	107.0
HEIGHT	167.0	168.0	169.0	170.0	171.0

HOW TO MEASURE:

BUST	Place tape measure across your back, underneath your arms and then across the widest point on the bust. Don't 'squash' yourself.
HEIGHT	This is your true height, without the assistance of shoes.

In instances when your body measurements for bust and height are in two different suggested sizes, we recommend going with the size from your bust measurement.

LOWER BODY MEASUREMENTS
