**FW23**

# **Naturally better performance apparel.**

**icebreaker**  
Move to natural

---

# Our brand.

**We lead a movement towards  
a more natural way of living,  
by taking unnecessary plastic  
out of performance apparel.**

---

# Brand strategy.

# 1

## Purpose-led.

We've been a purpose-led brand since the very beginning. Move to natural is our rallying cry, it's both the vision for our product and an invitation to consumers to join the movement.

# 2

## Consumer mindset.

The world is shifting to a more natural way of living. Our customers work during the week, while at the weekends they are likely to spend their time outdoors, hiking or skiing. If we want to support this shift in mindset, to enable our customers to truly move to natural, our products need to serve them seven days a week.

# 3

## Naturally better performance apparel.

We provide naturally better products to help our customers feel and perform naturally better, whatever their activity, any day of the week. This way, we offer consumers more options and reasons to enjoy their icebreaker, while creating more opportunities for innovation.

# Natural technologies.

## 100% Merino

**Naturally resilient.** Merino wool is fine and lightweight, yet durable and strong, and so soft, you have to feel it to believe it.

## Cool-Lite™

**Keep your cool.** Breathable and lightweight fabric blend designed to keep you cool.

## Shell+™

**Naturally protected.** Wind and water repellent (PFC-Free DWR), an outer layer to keep you protected.

We've adapted our merino wool into a series of innovations aimed at helping you perform naturally better, whatever your activity.

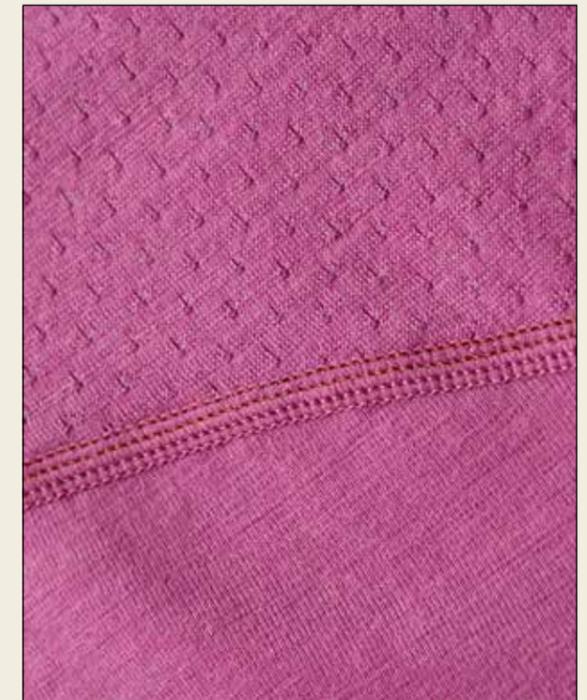

## RealFleece®

**Cold-weather essential.** An authentic brushed merino wool that is warm and soft to the touch.

## MerinoLoft™

**Naturally insulated.** Natural merino wool insulation with a high warmth-to-weight ratio.

## ZoneKnit™

**Naturally breathable.** Engineered body apped technology to regulate your body temperature and let your skin breathe during high-intensity activity.

# Four hero categories.

# 1

## Tees

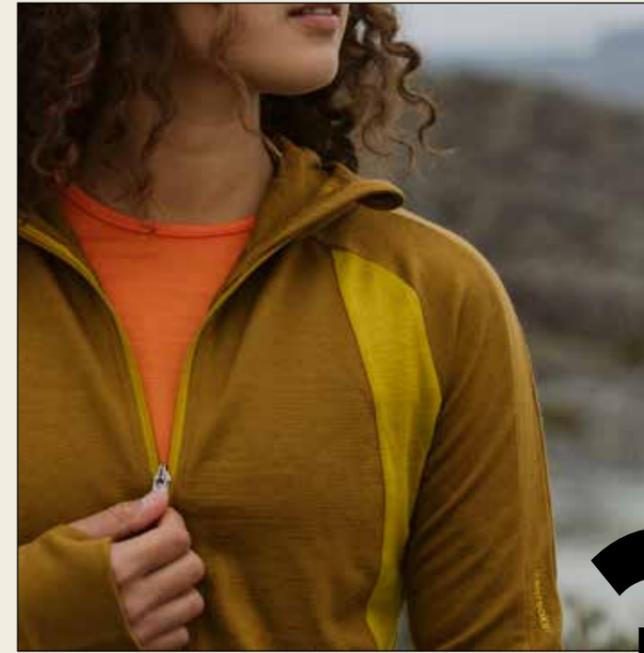

We have the perfect, high-performing tee for your next adventure. Made with a variety of fabrics, from natural merino wool to plant-based Tencel™ Lyocell, now even more of our tees are plastic-free.

# 2

## Base layers

Our base layers represent the core of our brand. Today, all of our base layers are plastic-free, and most are made with 100% merino wool. Versatile, comfortable and naturally odour resistant.

# 3

## Mid layers

With our RealFleece® technology, mid layers are our most important opportunity for growth. Made with natural fibres, your mid layer is versatile, comfortable and provides the right warmth-to-weight ratio depending on your adventure.

# 4

## Underwear

Our underwear category complements our layering system perfectly. Ideal for active or casual use, our underwear is super soft and ultra-comfortable.

# Our layering system.

## Underwear

Start the day with nature next to your skin. Soft and lightweight fibres that allow your skin to breathe, for freshness and comfort all day.

## Base

Natural softness against your skin, for breathable comfort and climate control. Versatility, style, function and performance without compromise.

## Mid

Wrapping the body in comfort, our insulating mid layers add a buffer zone for moisture and a shield from the cold.

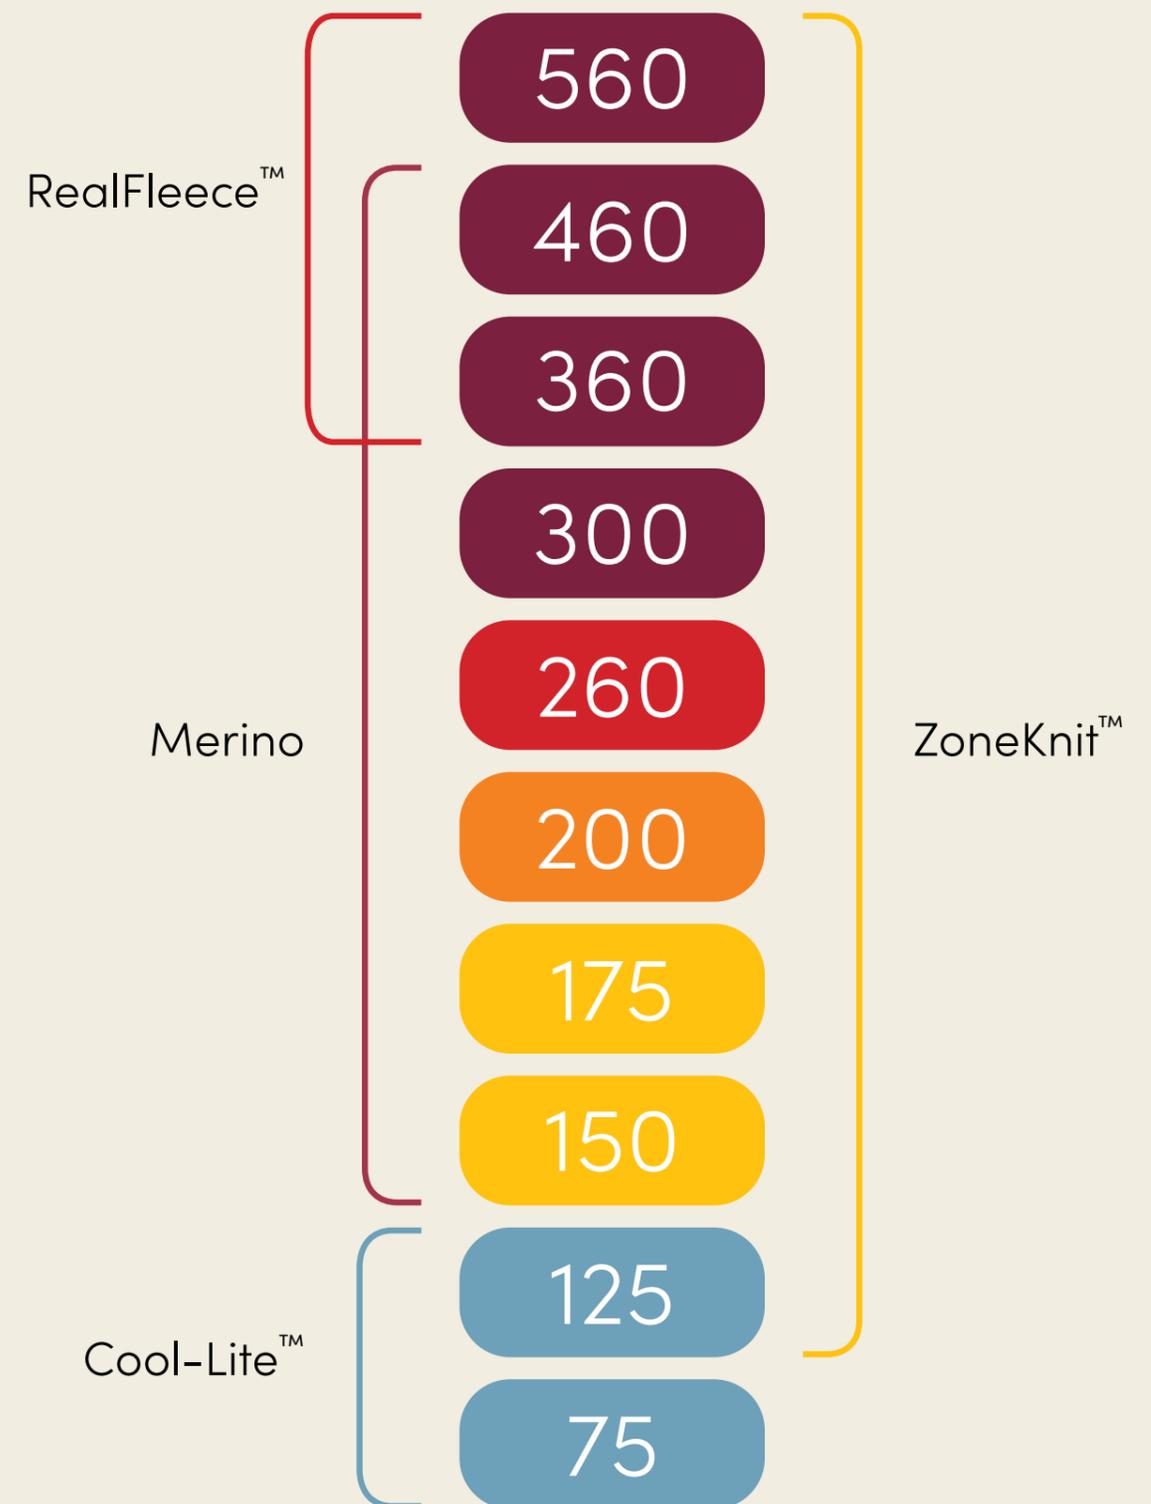

## Outer

Warm and lightweight, our outer layers protect from the elements, while still allowing the body to move and breathe freely.

# The icebreaker warmth system.

We've adapted the warmth system to include more of our products but the same principle still applies:

**The bigger the number, the warmer you'll be. The lower the number, the cooler you'll be.**

**Our  
seasonal  
stories.**

---

# Seasonal stories.

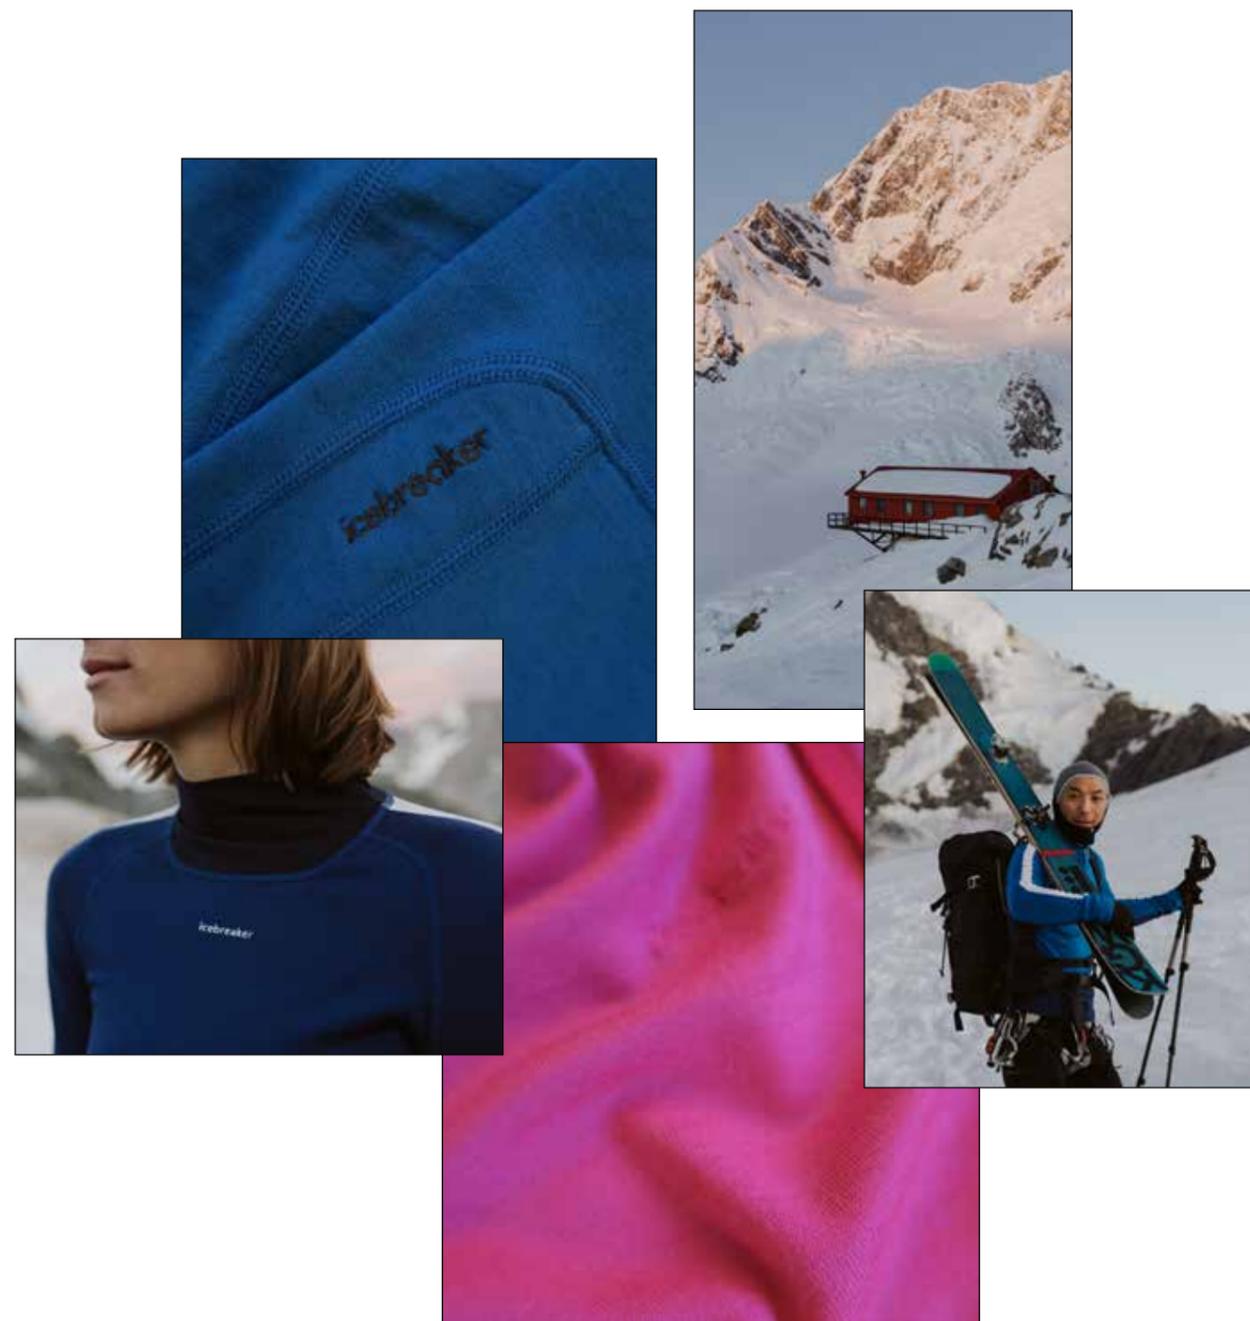

Our connection with nature runs deep. Working with what nature provides and innovating as nature does; it's in everything we do.

This season, we celebrate nature for the high-performing fibres it provides, the **colours and patterns** that inspire our designs, and the way it enables us to create no-compromise **natural innovations**.

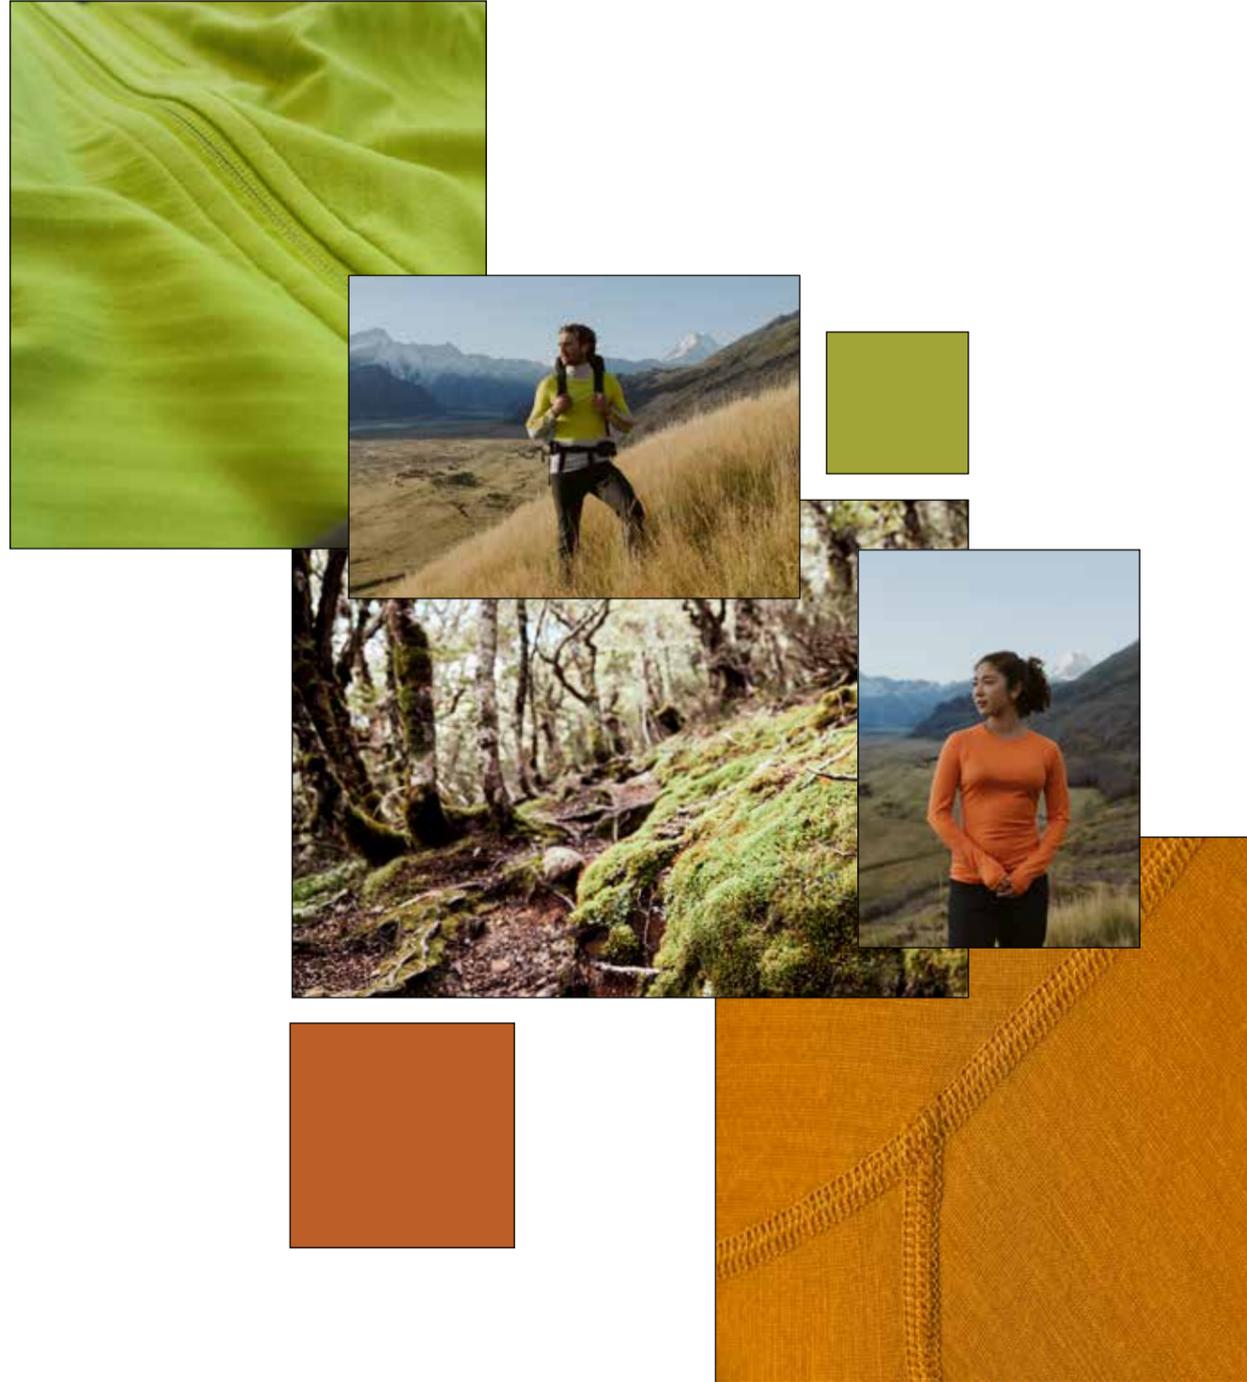

We're affirming our position as leaders in the natural performance landscape. Natural performance is in our fibres, our products, our innovations, and it's in our nature.

# Snow.

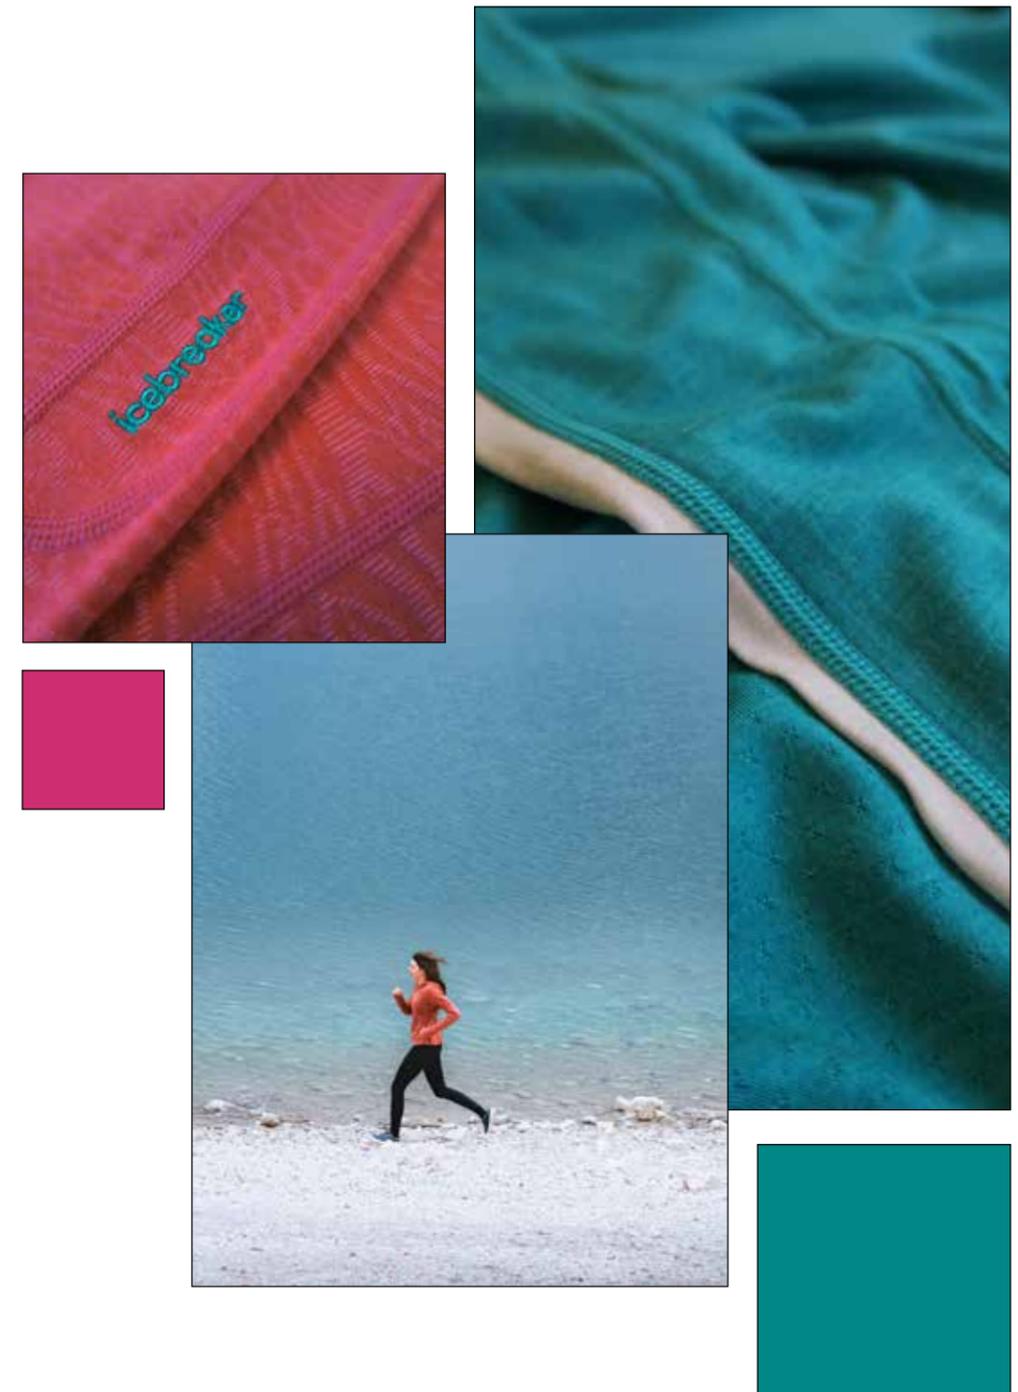

From first light to final run, move across the snow in comfort. Protect against wind, snow and light rain for comfort in cold conditions, and layer with nature next to skin.

# Hike.

Head up to where the morning air is chilled and the glow of daybreak first touches the peaks. Your layering system brings confidence and comfort.

# Run.

Venture off the beaten track and lose yourself in the heart of nature. Natural fibres work as hard as you do, so feel free to up the pace.

# Active.

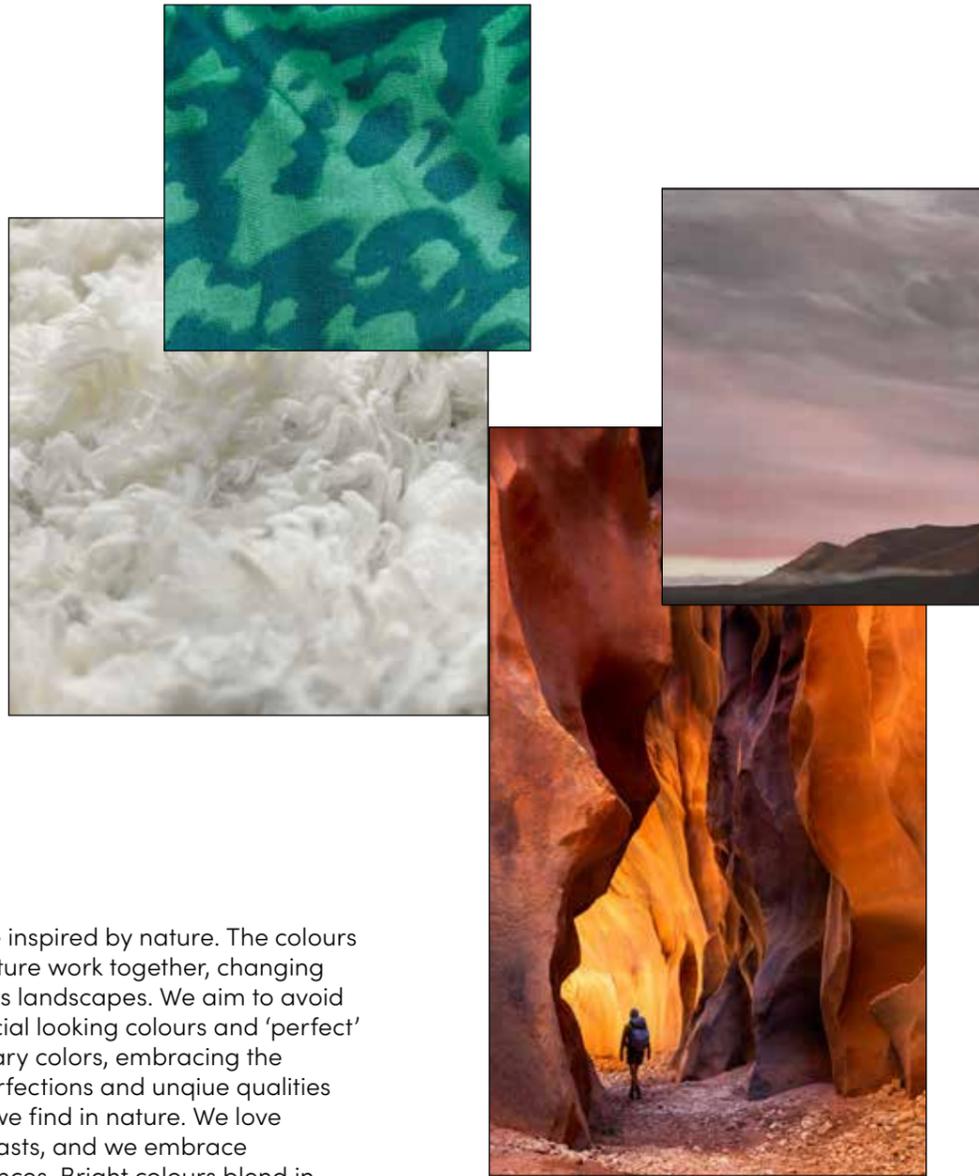

# Undyed.

Find comfort in the early morning light, the earth beneath your feet, and the warmth of merino wool against your skin. Connect with nature in Undyed, celebrating the natural beauty of merino.

# Colour.

We're inspired by nature. The colours of nature work together, changing across landscapes. We aim to avoid artificial looking colours and 'perfect' primary colors, embracing the imperfections and unique qualities that we find in nature. We love contrasts, and we embrace differences. Bright colours blend in with bright environments, so we explore the interaction of colours to deliver considered expressions. Sometimes calm, harmonious colours can be the most impactful in the right landscape. We're interested in how colour is worn, to blend in with nature or to stand out in nature. Whether on trail or in town, every shade and combination can be versatile, unique and individual. We're inspired by the colourful expressions in nature.

# Base Layer

Sitting softly next to your skin, natural fibre base layers move and breathe in harmony with your body for comfort all day long.

# Reference

Women

Sizing / measurements refer to body size, not garment dimensions.

In instances when your body measurements are midway between two sizes, go to the smaller size for a tighter fit or the larger size for a looser fit.

Upper Body Measurements

Woman (inches)	WXS	WS	WM	WL	WXL
<b>Bust</b>	32¼	34½	37	39½	42
<b>Height</b>	5' 5¼	5' 6	5' 6½	5' 7	5' 7½

Woman (cm)	WXS	WS	WM	WL	WXL
<b>Bust</b>	82.0	88.0	94.0	100.0	107.0
<b>Height</b>	167.0	168.0	169.0	170.0	171.0

How to measure:

<b>Bust</b>	Place tape measure across your back, underneath your arms and then across the widest point on the bust. Don't 'squash' yourself.
<b>Height</b>	This is your true height, without the assistance of shoes.

In instances when your body measurements for bust and height are in two different suggested sizes, we recommend going with the size from your bust measurement.

Lower Body Measurements

Woman (inches)	WXS	WS	WM	WL	WXL
