icebreaker

Move to natural

Our strategy.

Naturally better performance apparel.

We provide naturally better products to help our customers feel and perform naturally better, whatever their activity, any day of the week. This way, we offer consumers more options and reasons to enjoy their icebreaker, while creating more opportunities for innovation.

Purpose-led.

We've been a purpose-led brand since the very beginning. Move to Natural™ is our rallying cry, it's both the vision for our product and an invitation to consumers to join the movement.

Consumer mindset.

The world is shifting to a more natural way of living. The icebreaker consumer works and trains during the week, while at the weekends they spend their time outdoors, running, hiking and skiing. Our products need to serve them seven days a week if we want to support this mindset, to enable our customers to truly Move to Natural™.

Natural innovations.

►01 100% Merino wool

Soft, lightweight and naturally odour resistant fibre that keeps you warm when it's cold and cool when it's warm.

►02 Cool-Lite™

Lightweight and breathable fabric blend that's quick drying and helps to keep you cool.

►03 Featherlight™

Crafted with 90% petrochemical-free fabric, the 3x layers outer shell merges breathability& weather protection.

►04 RealFleece®

Brushed Merino wool naturally resists odours and helps regulate body temperature, while combining with the softness of TENCEL™ Lyocell fibers for comfort next-to-skin.

►05 MerinoLoft™

Merino wool insulation with a high warmth-to-weight ratio to help keep you warm during cold-weather activities.

►06 MerinoVent™

Crafted with 90% petrochemical-free fabric, the 3x layers outer shell merges breathability& weather protection.

►07 ZoneKnit™

Zoned engineered performance to help regulate your body temperature during high-intensity activity.

Four hero categories.

Underwear

Our underwear category complements our layering system perfectly. Ideal for active or casual use, our underwear is super soft and ultra-comfortable.

First layers

We have the perfect, high-performing tee for your next adventure. Made with a variety of fabrics, from natural Merino wool to TENCEL™ Lyocell, now even more of our tees are plastic-free.

Base layers

Our base layers represent the core of our brand. Today, most of our base layers are made with 100% Merino wool. They're versatile, comfortable and naturally odour resistant.

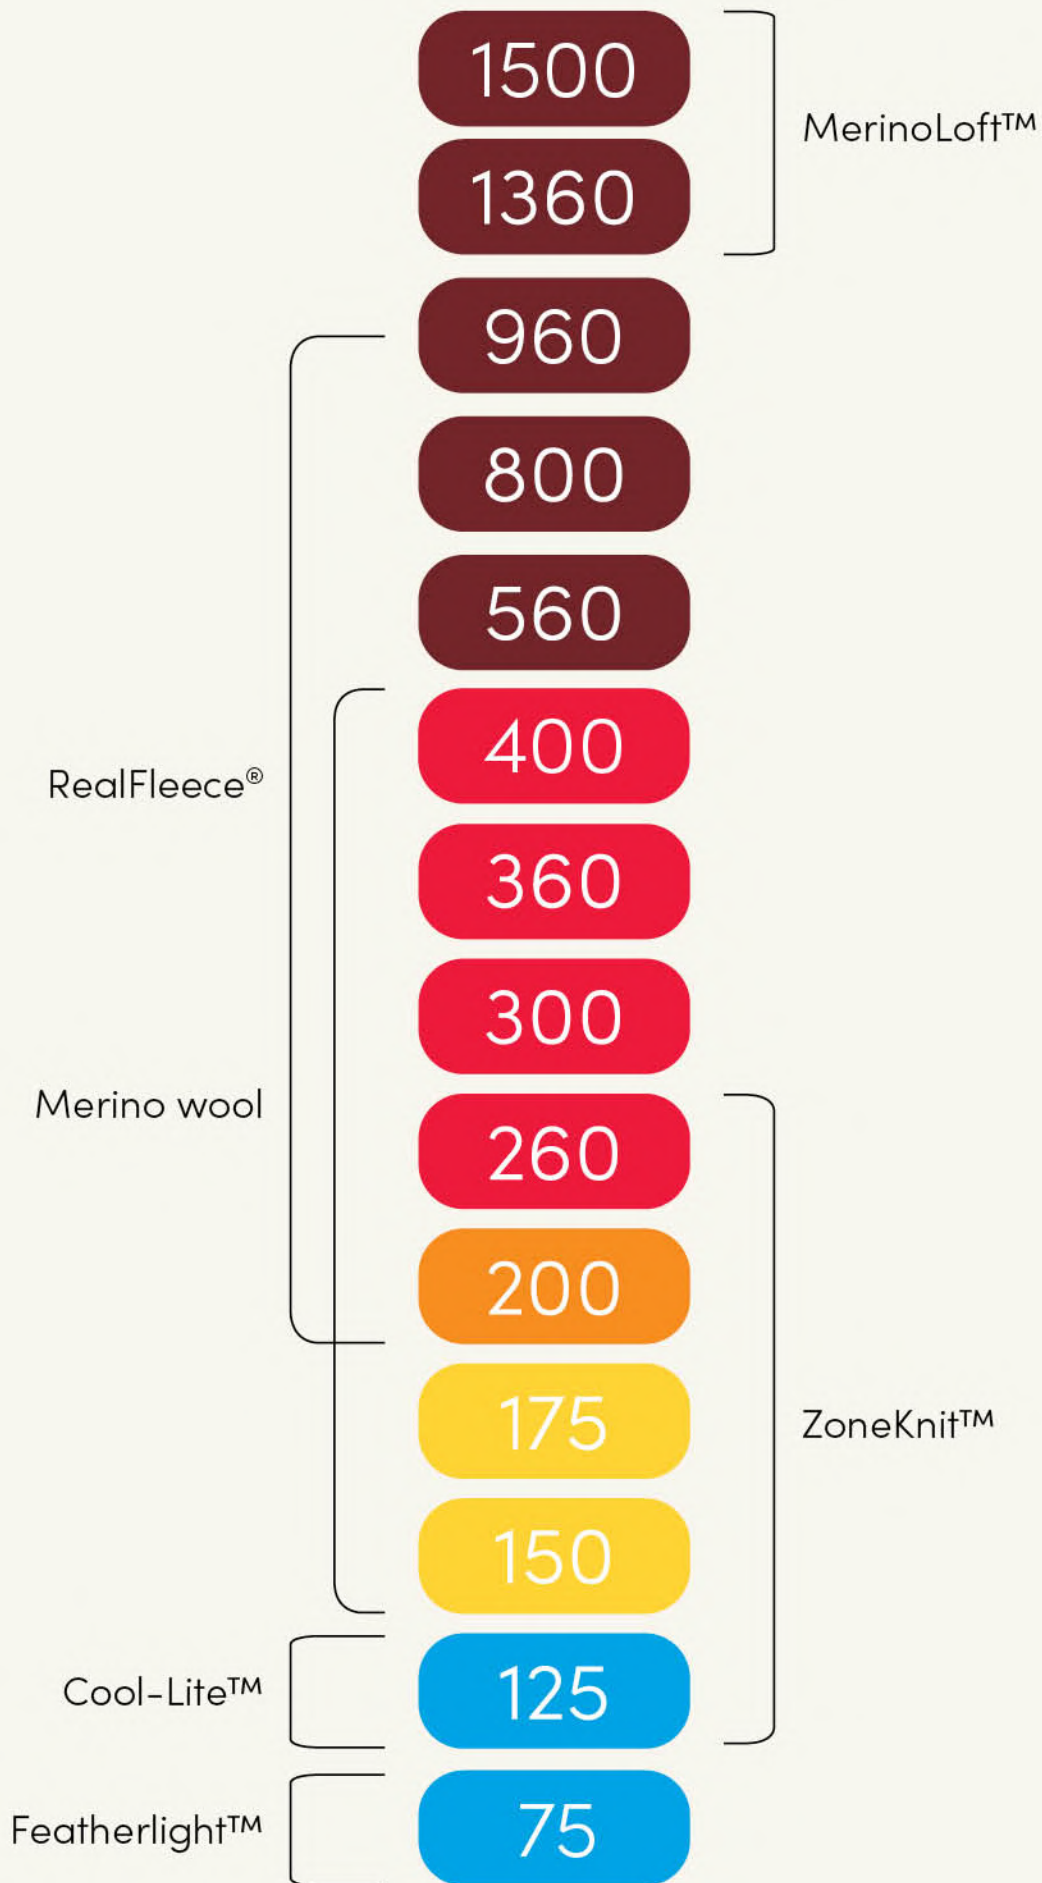

Mid layers

Our insulating mid layers deliver a buffer for moisture and a shield from the cold. This season, our RealFleece innovation is an important opportunity for growth. Brushed Merino wool naturally resists odours and helps regulate body temperature, while combining with TENCEL™ Lyocell fibres designed for comfort next-to-skin.

The icebreaker warmth system.

We've adapted the warmth system to include more of our products but the same principle still applies: the bigger the number, the warmer you'll be. The lower the number, the cooler you'll be.

Our layering system.

Underwear

Start the day with nature next to your skin. Soft and lightweight fibres that allow your skin to breathe, for freshness and comfort all day.

Base/First

Natural softness against your skin, for breathable comfort and climate control. Versatility, style, function and performance without compromise.

Mid

Wrapping the body in comfort, our insulating mid layers add a buffer zone for moisture and a shield from the cold.

Outer

Warm and lightweight, our outer layers protect from the elements, while still allowing the body to move and breathe freely.

Our layering system.

Underwear

Start the day with nature next to your skin. Soft and lightweight fibres that allow your skin to breathe, for freshness and comfort all day.

Base/First

Natural softness against your skin, for breathable comfort and climate control. Versatility, style, function and performance without compromise.

Mid

Wrapping the body in comfort, our insulating mid layers add a buffer zone for moisture and a shield from the cold.

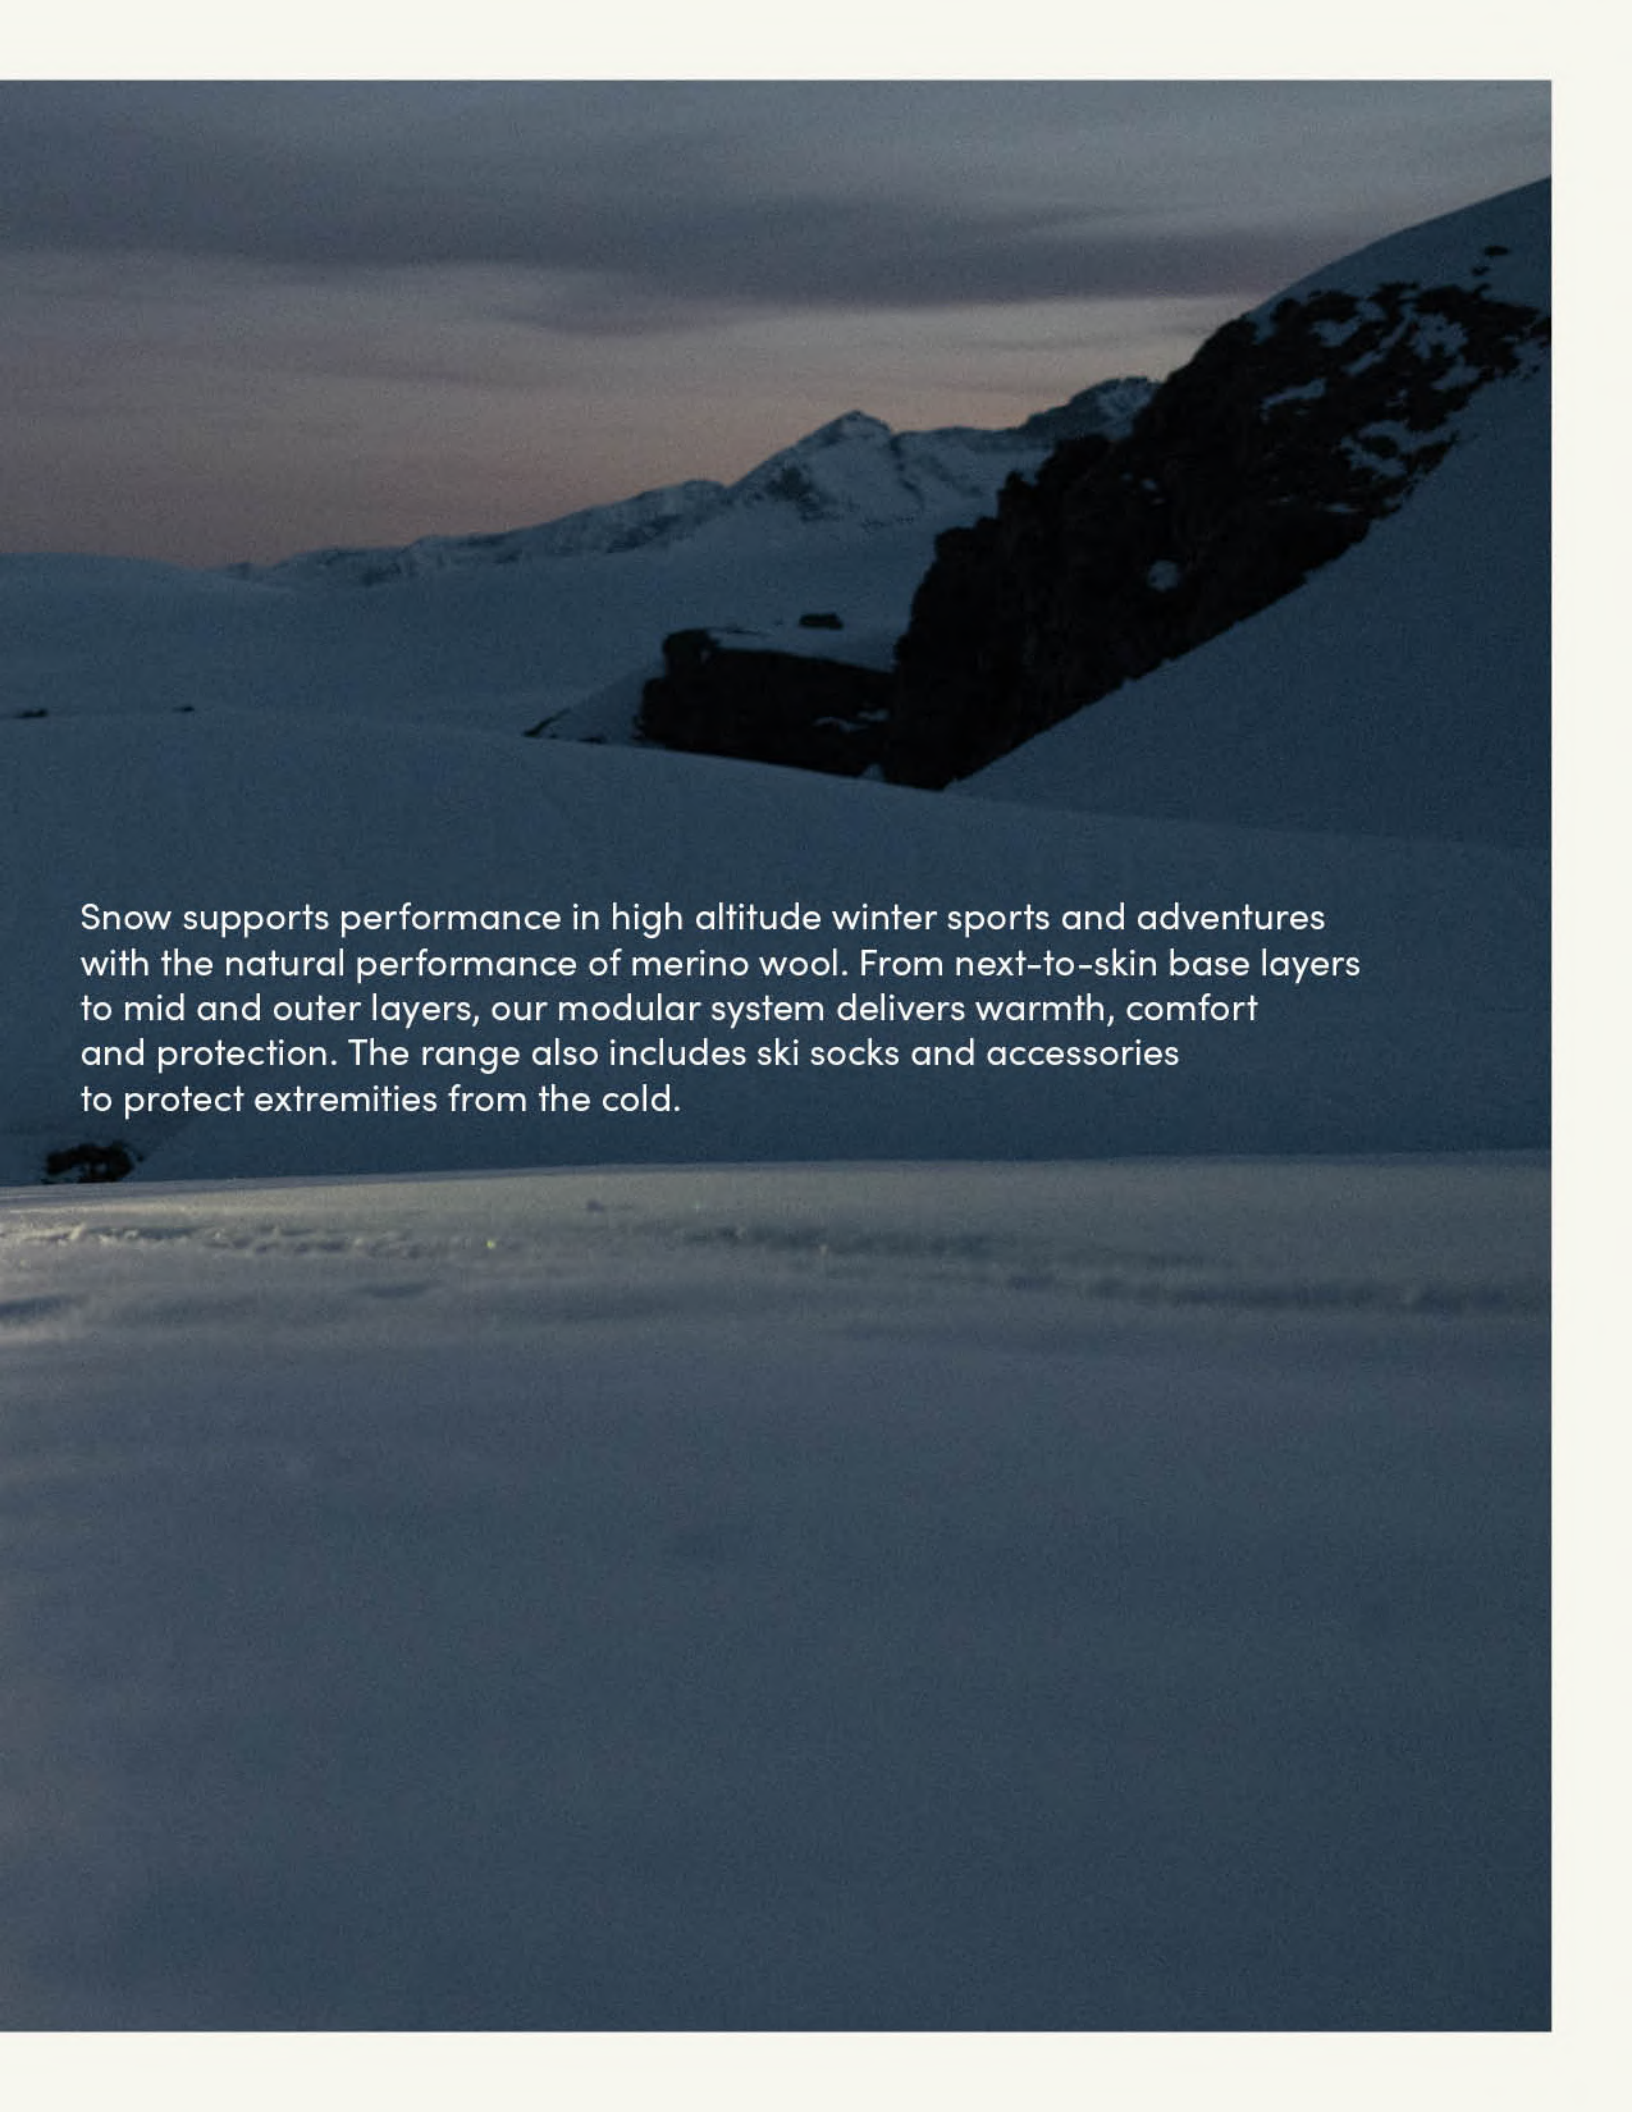

Outer

Warm and lightweight, our outer layers protect from the elements, while still allowing the body to move and breathe freely.

Snow

Snow supports performance in high altitude winter sports and adventures with the natural performance of merino wool. From next-to-skin base layers to mid and outer layers, our modular system delivers warmth, comfort and protection. The range also includes ski socks and accessories to protect extremities from the cold.

Merino Blend 400 RealFleece™ Grid Blackridge Hooded
Pullover DAWN 0A57HUA76

►Consumer Insights:

Consumers are seeking for single products that can balance warmth with breathability for active use. A 2023 Outdoor industry report* shows consumers prioritizing temperature regulation as a key attribute when purchasing performance wear.

►The product:

A low weight, temperature regulating fleece delivering adaptable warmth with a grid construction.

►What are we solving for:

A temperature regulating, natural fleece insulation that delivers high breathability on the move and warmth at rest.

►Key Benefit:

Warmth without weight

► Consumer Insights:

Vogue Business reports that post-pandemic buyers seek luxury brands for “sensory appeal” and “well-being,” indicating that how a garment feels is now as relevant as how it looks.

► The product:

The ultra-soft baselayer crafted from 100% Merino at 15.5 microns — the finest fiber used in the outdoor industry.

► What are we solving for:

Many winter layers feel harsh or restrictive against the skin. This MerinoFine baselayer redefines comfort with unrivaled softness and natural warmth, offering a refined next-to-skin experience in the cold.

► Key Benefit:

Next to skin softness.

Seasonal product campaign

Hike

A photograph of a grassy hillside with a blurred purple object in the foreground. The hillside is covered in low-lying, dry, brownish-yellow grasses and small shrubs. The purple object, which appears to be a person's arm or a piece of clothing, is out of focus and occupies the upper right portion of the frame. The sky is a pale, overcast blue.

Hike enables year-round outdoor exploration across a multitude of terrains and climates. Our thermoregulating head to toe, merino-based natural performance apparel and accessories deliver all-day comfort and protection, transitioning seamlessly from chilly mornings to harsh sun, wind and rain.

200 Oasis base layer

Merino 200 Oasis LS Crewe LICHEN 104365A74

Merino 200 Oasis LS Crewe BAY HTHR 1043750NQ

► Consumer Insights:

The base layer market is experiencing notable growth, driven by increasing consumer engagement in outdoor sports and fitness activities. The global base layer market is projected to reach USD 9.91 billion by 2030, reflecting a compound annual growth rate (CAGR) of 3.64%.

► The product:

A 100% Merino mid weight base layer. Thermoregulating, naturally odour resistant and versatile with a timeless design.

► What are we solving for:

The most versatile base layer in 100% merino, provides comfort thanks to the gussets and the offset shoulder seams for backpack compatibility. Designed for all-year-round layering in low to medium intense activities.

► Key Benefit:

Thermoregulation

Run/Train

A photograph of a desert landscape featuring rolling sand dunes. The sky is filled with heavy, dark clouds, creating a dramatic and somewhat somber atmosphere. The foreground shows the texture of the sand dunes, with some footprints visible. The text is overlaid on the left side of the image.

Run/Train challenges the synthetic-dominated running and conditioning sector with innovative, lightweight, breathable, natural performance apparel. Designed for freedom of movement, quick-dry, merino-blend fabrics deliver unparalleled comfort enabling focus from the first stride to the last.

Winter run

Merino Blend 125 ZoneKnit™ LS Crewe
BLACK IB0A579I001

Merino Blend 125 ZoneKnit™ LS Crewe BLACK IB0A579L001

► Consumer Insights:

Participation is growing in colder months — race entries rose 15% YoY in late 2024 in the U.S., showing runners are training despite winter conditions. Runners are not avoiding the cold but rather they are spending more to stay comfortable in it.

► The product:

Our Merino-based baselayer is the ultimate solution for cold-weather running — keeping you warm in winter conditions while delivering natural breathability and unrestricted movement.

► What are we solving for:

Winter runs start cold but heat up fast. This Merino top to bottom baselayer outfit keeps you warm in freezing conditions while releasing excess heat as you push the pace.

► Key Benefit:

Thermoregulation
