# icebreaker

Move to natural

# Our brand.

We lead a movement towards  
a more natural way of living,  
by taking unnecessary plastic  
out of performance apparel.  
Move to Natural™.

# Our strategy.

## **Naturally better performance apparel.**

We provide naturally better products to help our customers feel and perform naturally better, whatever their activity, any day of the week. This way, we offer consumers more options and reasons to enjoy their icebreaker, while creating more opportunities for innovation.

## **Purpose-led.**

We've been a purpose-led brand since the very beginning. Move to Natural™ is our rallying cry, it's both the vision for our product and an invitation to consumers to join the movement.

## **Consumer mindset.**

The world is shifting to a more natural way of living. The icebreaker consumer works and trains during the week, while at the weekends they spend their time outdoors, running, hiking and skiing. Our products need to serve them seven days a week if we want to support this mindset, to enable our customers to truly Move to Natural™.

# Natural innovations.

## **RealFleece®**

Brushed Merino wool naturally resists odours and helps regulate body temperature, while combining with the softness of TENCEL™ Lyocell fibers for comfort next-to-skin.

## **Cool-Lite™**

Lightweight and breathable fabric blend that's quick drying and helps to keep you cool.

## **ZoneKnit™**

Zoned engineered performance to help regulate your body temperature during high-intensity activity.

## **100% Merino wool**

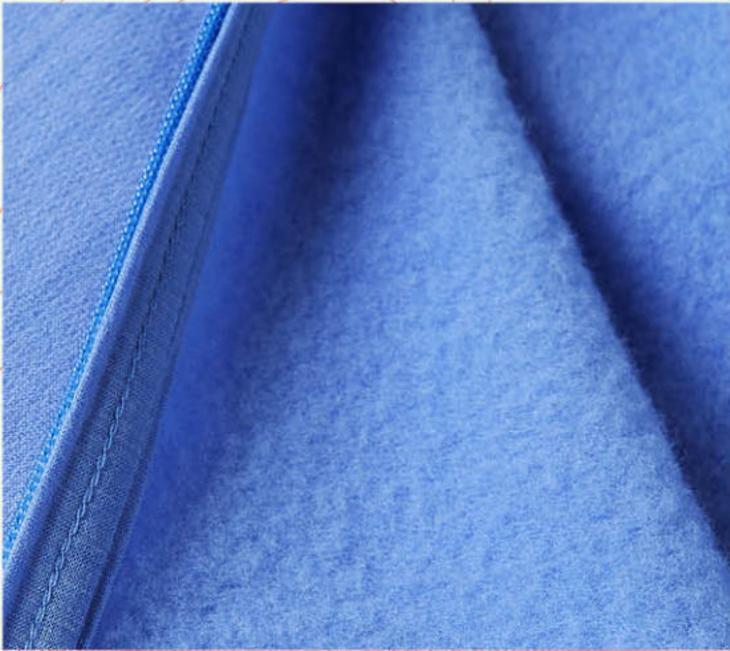

Soft, lightweight and naturally odour resistant fibre that keeps you warm when it's cold and cool when it's warm.

## **MerinoLoft™**

Merino wool insulation with a high warmth-to-weight ratio to help keep you warm during cold-weather activities.

## **MerinoVent™**

Crafted with 90% petrochemical-free fabric, the 3x layers outer shell merges breathability & weather protection.

# Four hero categories.

## Underwear

Our underwear category complements our layering system perfectly. Ideal for active or casual use, our underwear is super soft and ultra-comfortable.

## Base layers

Our base layers represent the core of our brand. Today, most of our base layers are made with 100% Merino wool. They're versatile, comfortable and naturally odour resistant.

## Tees

We have the perfect, high-performing tee for your next adventure. Made with a variety of fabrics, from natural Merino wool to TENCEL™ Lyocell, now even more of our tees are plastic-free.

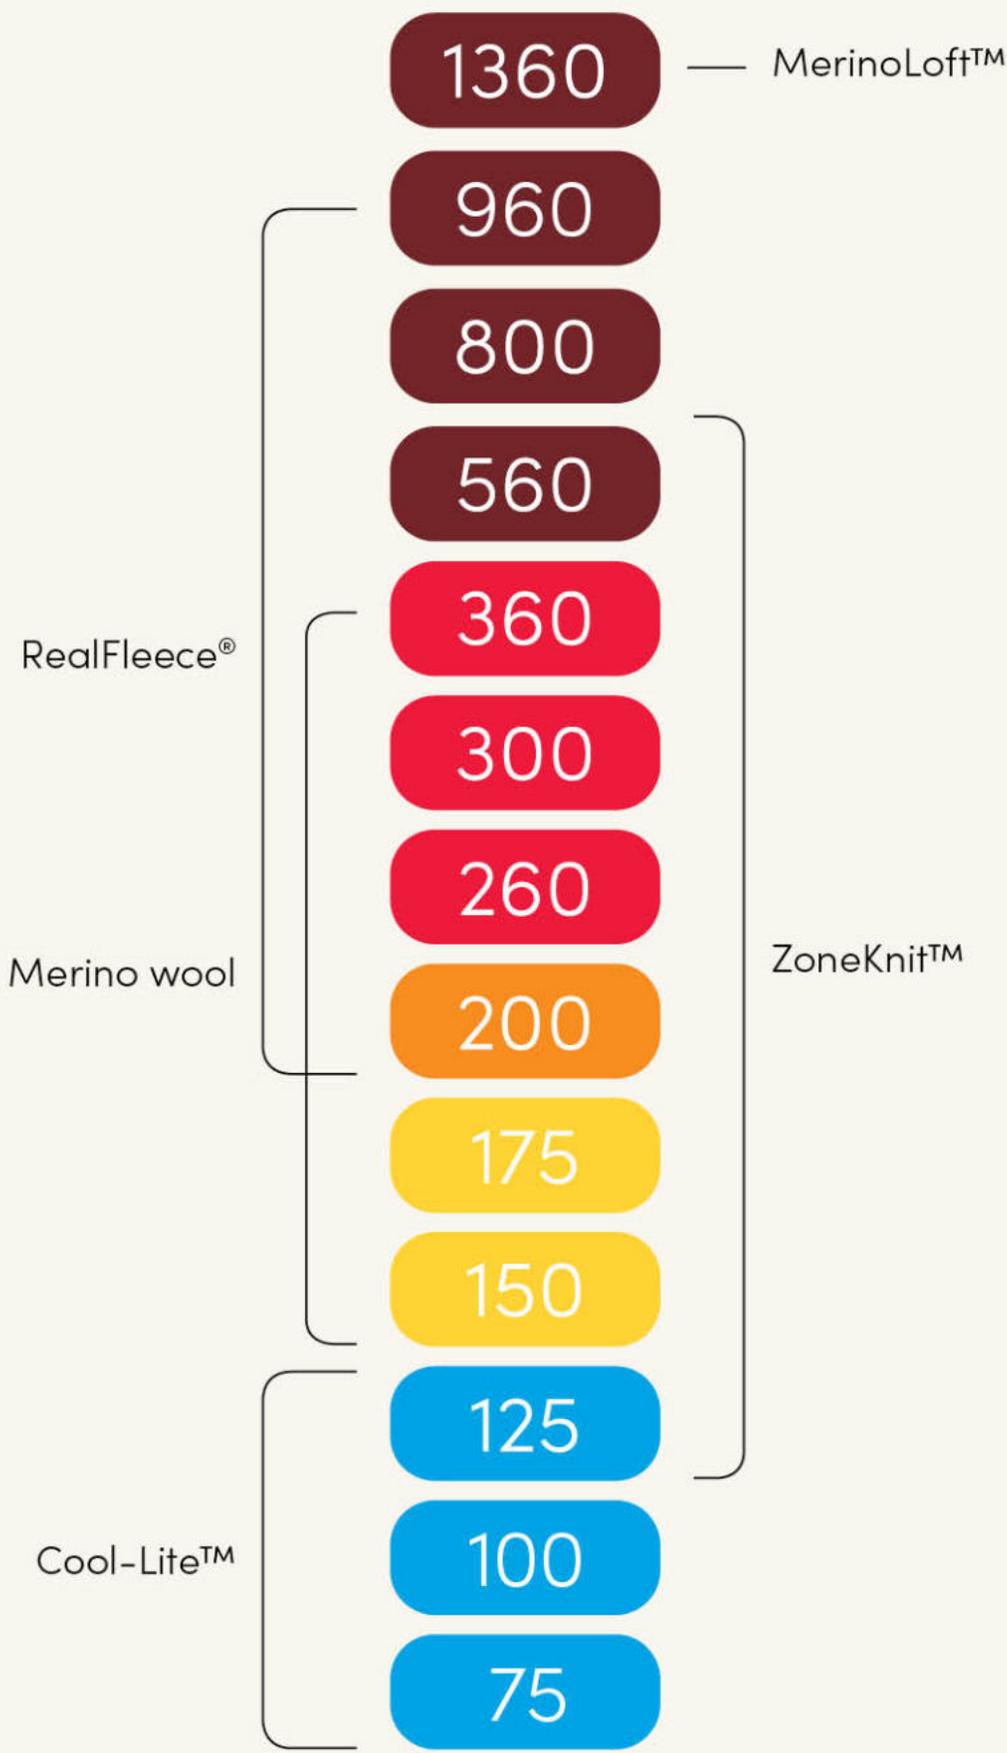

## Mid layers

Our insulating mid layers deliver a buffer for moisture and a shield from the cold. This season, our RealFleece innovation is an important opportunity for growth. Brushed Merino wool naturally resists odours and helps regulate body temperature, while combining with TENCEL™ Lyocell fibres designed for comfort next-to-skin.

# The icebreaker warmth system.

We've adapted the warmth system to include more of our products but the same principle still applies: the bigger the number, the warmer you'll be. The lower the number, the cooler you'll be.

# Our layering system.

## Underwear

Start the day with nature next to your skin. Soft and lightweight fibres that allow your skin to breathe, for freshness and comfort all day.

## Base/First

Natural softness against your skin, for breathable comfort and climate control. Versatility, style, function and performance without compromise.

## Mid

Wrapping the body in comfort, our insulating mid layers add a buffer zone for moisture and a shield from the cold.

## Outer

Warm and lightweight, our outer layers protect from the elements, while still allowing the body to move and breathe freely.

# Our layering system.

# 150 Tech Lite

Men Tech Lite SS Relaxed Tee Proto Grey 0A57G40L3

Women Merino 150 Tech Lite SS Crop Slim Tee Mint 0A57G20A2

► Consumer Insights:

Travel trends indicate a growing demand for immersive, off-the-beaten-track experiences. During these trips, clothing is put to the test, making travellers seek products that can be worn multiple times without concerns about personal odour.

► The product:

icebreaker's best-selling Tee is 100% merino, offered in multiple colours and graphics. Its naturally odour resistance properties make it the perfect tee to be packed for active travelling.

► What are we solving for:

A tee made in a 100% merino fabric for versatility during everyday activities and hikes. For the consumer who is looking for comfort, breathability and natural odour-resistance but also wants variety in silhouettes, a wide range of colours and graphics.

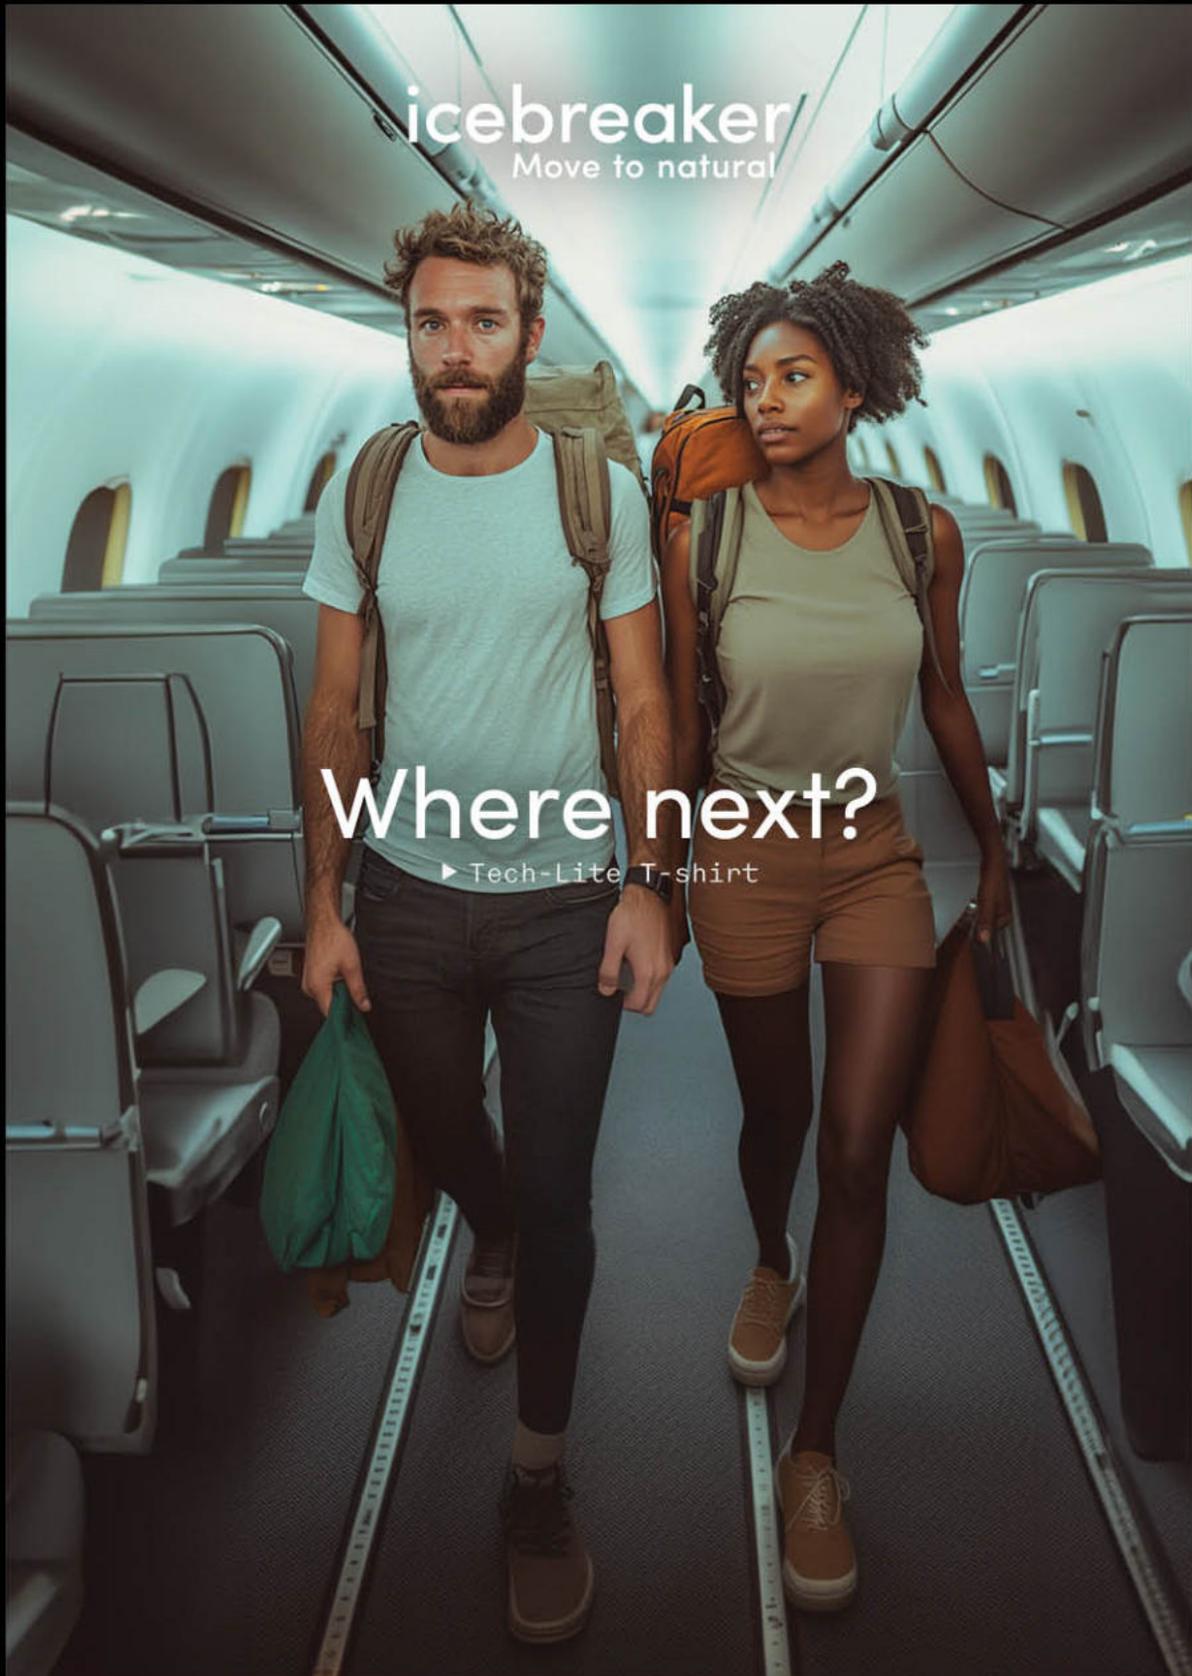

► Key Benefit:

Natural odour resistance

Men Merino Blend 125 Cool-Lite™ Sphere SS Tee Colour Block DK Lodden Black/CB 0A56X30L5

Women Merino Blend 125 Cool-Lite™ Sphere SS Tee Seaglass 0A56ZO0GZ

## ► Consumer Insights:

Although April to September is the peak season for hike product searches, full-price sales account for only 36.45% of icebreaker sold yearly, indicating that most consumers are still partially aware of merino's summer benefits.

## ► The product:

icebreaker's best selling performance tee. Simple design to include Cool-Lite™ technology for warm weather hikes.

## ► What are we solving for:

For the consumer who is looking for a comfortable, plastic free, breathable, naturally odour resistant tee, ideal for your sport activities like hiking.

# UV Protection

Men 150 MerinoFine™ Ace LS Zip Hoodie Proto Grey  
0A57EL0L3

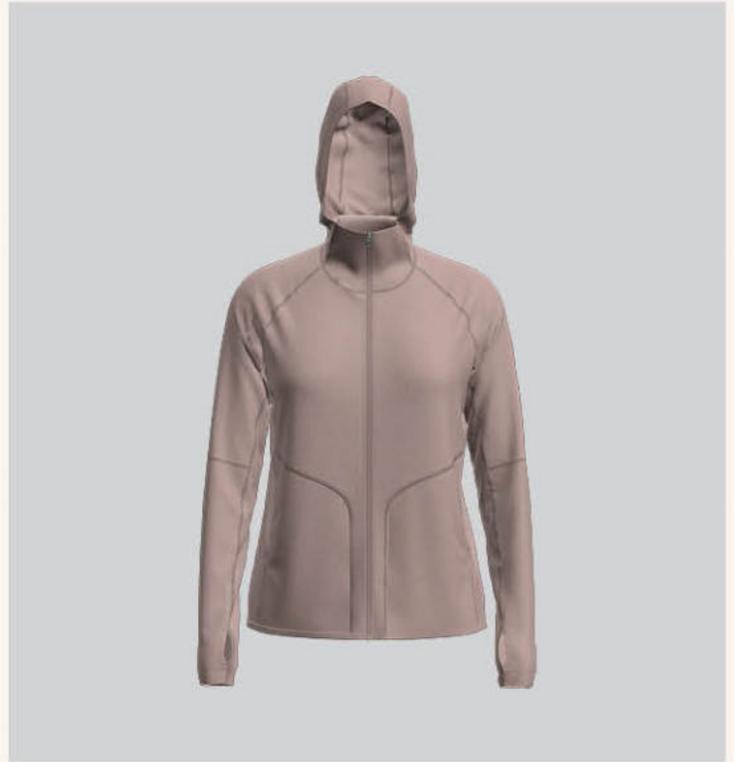

► **Consumer Insights:**

Awareness of sun-related skin damage is growing among outdoor consumers. Yet many do not fully understand the importance of wearing protective clothing as part of their sun protection habits.

► **The product:**

Made with ultrafine merino wool using OTW® Omega Twist Spinning Technology, the Ace is a lightweight performance full zip hoodie designed for aerobic days outside when you need an extra layer.
